

No 00350

No 00350

General Information:

In time of war it may become necessary to exfiltrate by clandestine methods Allied personnel who for one reason or another find themselves behind the enemy lines. It is a part of the United States Government's war planning responsibility to prepare Evasion and Escape Lines and supporting Reception Centers within and without probable theatres of operations as a part of unconventional warfare in support of the general overall war plans. The representatives of the United States Government, therefore, request the permission of the Government of the Grand Duchy of Luxembourg to be placed in liaison with proper Luxembourg governmental authorities for the purpose of jointly planning, preparing and establishing Evasion and Escape Lines and supporting Reception Centers in the Grand Duchy of Luxembourg.

Mission:

On a bipartite (Luxembourg-United States) basis

- A. To plan, prepare, establish and develop in peacetime sensitive assets which will assist in the implementation of the wartime assignment of the Luxembourg unconventional warfare section.
- B. To make possible the rapid redeployment of all needed operational personnel to the wartime Allied Base and to evacuate certain designated Luxembourg personnel with dependents to intermediate safehaven for movement to the United States.

Specific Tasks:

To fulfill the above mission, it will be necessary for a joint Luxembourg-United States committee to be charged with the function of implementing in detail certain specific tasks.

A. Personnel-

1. To recruit and train in specialized fields evacuable organizers.
2. To recruit and train group chiefs, assistant group chiefs, W/T operators and reserves to form the cadres of designated reseaux.

B. Training-

To train evacuable organizers and staybehind personnel in each special field along jointly agreed doctrine, methods and procedures of clandestine operations. Specialized courses in the United States can be made available. Also United States training aids--films and equipment--for training in Luxembourg can be placed at the disposal of the Luxembourg organizers.
