

on saturday the 27th of april at 2345 we destroyed  
two of your high tension pylons. the explosifs were  
placed on four from the eight socles available.

1 this is our deal...

you pay us 250 000 US dollar. in return we stop  
destroying your high tension pylons.

2 you agree...

you go to the "luxemburger wort" and advertise the  
following text under the rubric "verschiedenes/divers"

text: "cherche trefle noir avec voilier"

this text must appear on friday and saturday  
the 10th and 11th of may in the said newspaper.  
contact will be maintained and conditions will be  
specified on a later date.

3 you do not agree...

the text in 2 does not appear on the said dates.  
no further contact is made. time and space are on  
our side.

4 in any case...

no information is given to police-gendarmerie and/or  
press. betrayal will be punished. the heads are  
considered to be responsible.

to be sure to deal with us in a maybe next letter  
check letter/figure code on the other side.

the following points have to be precisely applied in the order listed. any irregularity will result in canceling our deal.

first move

- 1 on wednesday the 15th of may one competent person of your choice must drive from luxembourg to the railwaystation in clervaux.
- 2 this person takes along the two bags containing 125 000 US dollar each.
- 3 at the railwaystation in clervaux the person enters the public telephone box in front of the BIL where it finds a next letter( bottom, right hand corner ).

conditions

- the person of your choice must understand english.
- the car must be an official CEGEDEL car.
- you have to go via mersch, ettelbruck, diekirch.
- you have to be in clervaux at 1220 at the latest.
- the letter must not be removed from the telephone box earlier than 1220 and not later than 1230.

this first move has to be applied as such unless other information signed c23y78 would be communicated to the person concerned.

on monday 29th of april at 1030 you have taken the risk to inform gendarmerie about our deal, hoping that THEY would catch us during the money transfer. however there were two reasons why THEY did not catch us:

- THEY are acting worse than cup scouts
- the simulated money transfer was only a game  
( operation "artabely" = operation "betrayal" )

we hope THEY enjoyed visiting clervaux.

this is our last contact unless you wish a true money transfer (amount 750 000 US dollar)  
you contact us via the same advertisement as the first time.

play the game ?

the transfer of 750 000 US dollar takes place on  
wednesday 12th of june at time 1430.

1st. move

at time 1430 one competent person of your choice brings  
the money down to the parking " place du theatre ".  
at level -2 ( close to the turn where it goes down to  
level -3 ) you see a black container with sand.  
below this container you find a next letter.  
this letter must not be removed by anyone before 1430 .

any irregularity will result definitely in  
canceling our deal.

2nd move

you take the money and go down to level -5.

you put the money near the black container with sand  
at level -5. ( close to the door "local groupe electrogene" )

you leave the place immediately. your mission is over.

the money must remain at that place  
as long as necessary;

the transfer failed because of

- the close presence of gendarmerie  
(brigade mobile, brigade stupefiants,..)
- the close presence of specialized german police forces
- the presence of a secret transmitter in the "money"bag

we have given this information to the press.

you lost.
