Explanation camping for future:

A group of individual activists decided to participate in a camp for future to set a political statement. This is not organised by any official organisation but only by private people. Everyone who wants to join is welcome as long as she/he respects the action consensus. Everyone will set up their tents at the chosen location and the negotiation team will try to negotiate as much time as possible to stay there. This action is a civil disobedience. The people who join the camping want to show how a society can function in a peaceful be-together.

Packing list:

- Tent
- Sleeping bag
- Carry mat
- Torch light
- Warm and dry clothes
- K-way
- Snacks
- Maybe a camping seat

Explanation of the goal of the action:

Even though the parliament is empty, we want to set the statement that we are here demanding the politics to take action, while they are taking time off we are here and doing our work to tackle the climate crisis.

*Sing4climate [text](#):

We need to wake up
We need to wise up
We need to open our eyes
And do it now now now
We need to build a better future
And we have to start right now

We're on a planet
That has a problem
We've got to solve it, get involved
We need to build a better future
And we have to start right now

Make it greener
Make it cleaner
Make it last, make it fast
And do it now now now
We need to build a better future
And we have to start right now

No point in waiting
Or hesitating
We must get wise,
take no more lies
And do it now now now
We need to build a better future
