Today, 16.09.2025, the evaluation of research at the University of Luxembourg is being discussed in Parliament.

We are here to express our dissent about the alarming situation behind the scenes at the University.

WE ARE CONCERNED ABOUT THE UNIVERSITY'S EDUCATIONAL MISSION

- The University's core mission of education is being neglected, at the expense of students and employers in Luxembourg.
 - Despite a large public budget, the urgent student housing crisis are not prioritized.

WE ARE CONCERNED ABOUT HOW THE UNIVERSITY TREATS EMPLOYEES AND STUDENTS

- The University systematically retaliates against people who raise concerns.
- Staff have resigned, requested transfers, or filed complaints about power abuse and harassment
- The University's leadership has engaged in abusive practices, including interference in democratic elections for the University Council and the Board of Governors.
 - Those in weaker positions (students, PhDs, postdocs) are the most vulnerable.

WE WILL NOT SPEAK TODAY. WE DO NOT WANT TO BE RECOGNIZED.

WE RELEASE THIS STATEMENT INSTEAD.
